Microsoft Word
Create and share professional-looking documents with state-of-the-art editing, reviewing, and sharing tools. The Design tab provides quick access to features and Smart Lookup shows relevant contextual information from the web directly inside Word.
Microsoft Excel
Analyze and visualize your data in intuitive ways with a fresh user interface plus your favorite keyboard shortcuts. Leverage features like Analysis Toolpak, Slicers, and Formula Builder to save time, so you can focus on insights.
Microsoft PowerPoint
Create, collaborate, and effectively present your ideas with slide transitions and an improved Animations task pane. Threaded comments alongside your slides help you incorporate feedback into your presentations. And Presenter View displays the current slide, next slide, speaker notes, and a timer on your computer screen, while projecting only the presentation to your audience on the big screen.
Microsoft Outlook
Manage your email, calendar, contacts, and tasks. Push email support keeps your inbox up to date, conversation view groups related messages, and calendars can be viewed side-by-side for planning.
Microsoft OneNote
It's your very own digital notebook, so you can keep notes, ideas, web pages, photos, even audio and video all in one place. Whether you're at home, in the office, or on the move, you can take it all with you wherever you go while sharing and collaborating with others. Use it for school assignments, work projects, travel plans, party planning, and more.
