Product Description

64 Bit OEM DVD 2004 Windows 10 Pro OEM Box French,Win 10 Pro Activation Key

Product Description
Windows 10 Professional 64 bit / 32 bit is your partner in making things happen. With Windows 10 USB you get fast start-ups, a familiar yet expanded Start menu, and great new ways to get stuff done even across multiple devices. You will also love the innovative features like an all-new browser built for online action, plus Cortana, the personal digital assistant who helps you across your day. Windows 10 OS USB is the best choice in software today.

Feature:

Instruction for installation Windows 10 Professional 64 bit will be provided with the product.
Windows 10 Pro OEM includes a DVD Drive, Activation key and the Installation Guide.
Windows 10 Pro 32 bit / 64 bit French version. You can also choose English, German,
Spanish ,Korean and Italian.
The product you receive must strongly match the photos. Beware of pirated software.

Windows 10 Pro is built for business

If your device is lost or stolen, BitLocker and BitLocker to Go put everything on lockdown, so no one else can access your systems or data.
Your Office files like Excel, Word, and PowerPoint automatically get stored in the cloud, which acts as a virtual online drive, so you can share and work on documents in real time.
Log in with Remote Desktop to use your Windows 10 Pro PC while at home, on the road, or anywhere there's an internet connection.
Create your own private app section in the Windows Store for convenient access to the apps you need most.

More secure

Keep your files safe with BitLocker, and get the same security on removable storage devices with BitLocker to Go. Windows 10 Pro also includes Windows Defender Antivirus, which uses the power of the cloud, wide optics, machine learning, and behavior analysis to protect your devices from emerging, sophisticated threats. Plus, automatic updates1 ensure you have complete, ongoing protection against current and future threats.

Remote Desktop

Log in to your PC or tablet and securely access your files, folders, and apps from virtually anywhere. All you need is an internet connection and Remote Desktop. Start editing a document in the office, keep working on it in the coffee shop on your phone, and finish up on your home PC.

Windows Ink

Capture great ideas before they slip away with Windows Ink. Quickly access a Windows Ink Workspace with the click of a digital pen or straight from your taskbar. You can even pull up the Ink Workspace before logging in. And powerfully pair inking with Office and other apps for smart note taking, easy document markup, and precise sketching or drawing.

Windows Hello

Sign in to your Windows devices with Windows Hello in less than 2 seconds—3 times faster than a password. Facial or fingerprint recognition provides instant access, and you always have the option of retaining a PIN as a backup. It's the enterprise-grade way to keep Windows devices more secure.

Office

The multitasking features of Windows 10 pair perfectly with Office. You can arrange your screen however you want. Easily manage multiple Office apps and docs on one screen, and effortlessly snap up to four of them to optimize your workspace. You can also slide the shared edge of snapped apps to wherever you want it, easily resizing both apps in a single motion.

Microsoft Edge

Microsoft Edge is the faster, safer browser built for Windows 10. It's optimized for the modern web, but is still compatible with legacy apps and sites. Write or type directly on webpages and share your markups with others. Use the reading view to eliminate distractions so you can work more efficiently. There’s also an improved address bar to help you find things faster.

Cortana

Cortana is your personal digital assistant.4 She can provide notifications about appointments and deadlines, suggest documents you may need for an upcoming meeting, and keep your group calendar in sync. Easily create, modify, and open lists with just your voice. And Cortana seamlessly integrates with other Windows apps, like Sticky Notes, Ink reminders, and Microsoft To-Do events.

The Windows you know, only better
Windows 10 feels familiar so you can get more done from the get-go. The Start menu is back with space to pin your favorite apps. And simple navigation means you don't need to spend much time learning anything new.
Always up-to-date
You won't have to wonder if you have the latest features or security updates. Windows automatically delivers updates, when they're ready, directly to your device.
Cortana's got your back
Cortana is your truly personal digital assistant who works across all your devices to help get things done.
Rule the web
Microsoft Edge is an all-new browser built to deliver a better web experience. You can write directly on webpages from your PC, read articles distraction free, and save your favorites to read offline later.
Take your gaming further
With Xbox on Windows, play and connect with your games and friends. Everywhere.
Universal Apps, including Office
The Store in Windows 10 is a one-stop shop for hundreds of thousands of apps including games, music, videos, as well as a new version of Office.
