## FAQ:

**Q: What are the minimum system requirements for Windows 10?** -----

**A:** The minimum system requirements for Windows 10 include a 1 GHz processor, 1 GB of RAM for 32-bit or 2 GB for 64-bit, 16 GB of hard disk space for 32-bit or 20 GB for 64-bit, and a DirectX 9 graphics card with WDDM 1.0 driver.

**Q: Can I upgrade to Windows 10 for free?**

**A:** The free upgrade offer for Windows 10 ended on July 29, 2016. However, you may still be able to upgrade by purchasing a license key from Microsoft.

**Q: How do I reinstall Windows 10?**

**A:** You can reinstall Windows 10 by going to Settings > Update & Security > Recovery, and then choosing the option to "Reset this PC." Follow the on-screen instructions to complete the reinstallation process.

**Q: What is Windows Defender and is it sufficient as an antivirus?**

**A:** Windows Defender is the built-in antivirus program in Windows 10. While it provides basic protection against malware, it is recommended to use a dedicated third-party antivirus software for more comprehensive security.

**Q: How do I check for and install Windows updates?**

**A:** To check for and install Windows updates, go to Settings > Update & Security > Windows Update. Click on "Check for updates" and follow the prompts to download and install any available updates for your system.
