The best Windows ever keeps getting better.
Windows is delivering new experiences through Cortana, Windows Hello and other features you won't find anywhere else.

More productive

Double-down on your productivity with more innovative tools that help you stay organized, capture ideas, do things online, and quickly get stuff done.

The quickest way to set ideas in motion

Quickly turn thoughts into action with the magic of Windows Ink.⁴ Naturally capture notes and ideas at the speed of thought — with no need to be logged in.

Your truly personal digital assistant

By learning over time, Cortana becomes more useful as you go. Count on Cortana to help you find things, complete tasks, set reminders and work across your devices more productively.

The best Windows ever for gaming

Play great new Xbox games on Windows 10 with the stunning performance of DirectX 12. Stay connected to your gaming community with the Xbox app, and play wherever you want with in-home streaming.

Ratings and reviews

[1] Hardware-dependent

[2] App experiences may vary.

[3] Windows Hello requires specialized hardware, including fingerprint reader, illuminated IR sensor or other biometric sensors.

[4] Broadband Internet required for some features (ISP fees apply). Xbox Live features only available with supported games in Xbox Live-supported countries, see xbox.com/live/countries. Limited number of games available in 2015 that support cross-device play; additional games to follow. Stream to one device at a time; streaming with multiplayer from Xbox One requires home network connection and Xbox Live Gold membership (sold separately); Gold also required for multiplayer play on Xbox One. DirectX 12 only available with supported games and graphics

chips. Game DVR only available with supported hardware. Xbox One, PC/Tablet and Phone versions of games all sold separately.

[5] Cortana available in select markets at launch, experience may vary by region and device.

OEM Software Notice:

- To purchase OEM System Builder software, you must be a System Builder and accept the System Builder License. "System Builder" means an original equipment manufacturer, an assembler, a Refurbisher, or a software preinstaller that sells the Customer System(s) to a third-party. OEM software may ONLY be distributed with a fully assembled computer system.
- For a desktop operating system or application software, the software also must be preinstalled on the hard drive of the fully assembled computer system, using the OEM Preinstallation Kit (OPK).
- The system builder who installs the software is responsible for the provision of end-user support

It's the Windows you know, only better

You're already an expert

Windows 10 is so familiar and easy to use, you'll feel like an expert. The Start Menu is back in an expanded form, plus we'll bring over your pinned apps and favorites so they're ready and waiting for you.

It starts up and resumes fast, has more built-in security to help keep you safe, and is designed to work with software and hardware you already have.

It's how the doing gets done

The web that works the way you do

Windows 10 comes with Microsoft Edge, an all-new browser that's built to give you a better web experience. Write or type notes directly on webpages and share them with others, read online articles free of distraction, and save your favorite reads for later access. And with Cortana enabled, you get instant access to key actions—like making reservations or reading reviews—without leaving the page you're on.

Multi-doing helps you get to "done" faster

Easily snap up to four apps in place and see all open tasks in a single view. You can even create virtual desktops when you need more space or want to group things by project.

Windows Store is your one-stop shop

Introducing the new Windows Store, a unified shopping experience across every Windows 10 device. Browse the store on your PC, tablet, or phone and easily purchase great digital content including apps, games, music, movies and TV shows.

It's the most personal Windows yet

Meet Cortana, your truly personal digital assistant

Cortana works across your day and your devices to help you get things done. By learning more over time, Cortana becomes more personal and useful to you. Cortana's also best at reminders, delivering them at the right time and place so you forget less and can do more.

Interact with your device however you want

Touch, type, write: the choice is yours so you can use whatever works best for what you're doing.
Flexibility to work how you want

The best screen is always the one you're on

Windows 10 enables your apps to look and work great in all modes, on all devices. On 2-in-1 devices, your screen can be optimized to work with touch or keyboard and mouse.

Xbox is coming to Windows

Get the biggest Xbox franchises with the best of Xbox Live. Start recording gameplay in seconds, compete against console players, and stream games from your Xbox One console to your Windows 10 device from anywhere in your home.

Great apps come standard

Windows 10 comes with great built-in apps like Maps, Photos, Mail & Calendar, Music, and Video. And these apps use OneDrive to back up your information and sync seamlessly across your Windows 10 devices, so you're never far from what you need.
