MK

Windows 10 Pro 64 Bit Dvd Product Activation Key COA Recovery Install OEM

Our Product Introduction

Basic Information

- Place of Origin: USA / Customize
- Brand Name: Microsoft
- Certification: Microsoft Certified
- Model Number: Windows 10 product key
- Minimum Order Quantity: 10 pieces
- Price: Negotiable
- Packaging Details: sticker
- Delivery Time: Within 48 hours
- Payment Terms: T/T, Western Union, MoneyGram,
- Supply Ability: 10000 pieces / week

Product Specification

- Bootable DVD: No With
- Region: UK
- Pack: In Pp Bag
- Languages: Multi-languages
- Shipment: DHL Or Email
- Operating Systems: Windows 10
- Highlight: **windows 10 pro 64 bit retail**, **windows 10 pro product key**

Product Description

Windows 10 Pro Professional DVD Product Activation Key COA Recovery Install OEM

NeoSmart OEM Product Key Tool: Recover Windows 10 Product Key From BIOS/EFI

Ever since the release of Windows 8, all PC manufactures have started embedding product license key into the BIOS/EFI. That is, computers pre-installed with Windows 8, Windows 8.1, and Windows 10 don't display product key information or Certificate of Authenticity (COA) sticker on the backup of the computer or in the battery bay.

Instead, PC manufactures have started embedding product key into the BIOS or EFI, and it can be seen by entering the BIOS/EFI of your computer.

While most users will never need to retrieve product key as the Windows image provided with the computer will automatically retrieve the product key from the BIOS or EFI during the installation. But if your have downloaded a fresh copy of Windows 8.1 or Windows 10 from Microsoft and want to install the same using the same product key, you need to take the help of third-party tools to recover the product key from the BIOS or UEFI.

About a year ago, we shared a free tool to recover Windows 8.1 product key from BIOS. This time around, we have another excellent utility to retrieve Windows product key from BIOS or EFI.
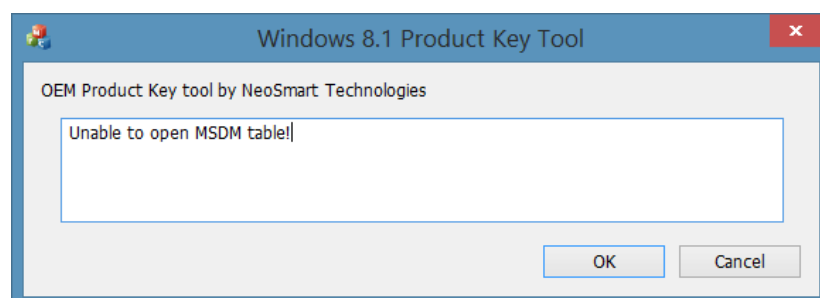

Windows 10 Product Key Tool

Windows 10 Product Key Tool is a newly released utility from the developer behind the very popularEasyBCD software. With Windows 10 Product Key Tool, one can easily recover Windows 7, Windows 8, Windows 8.1, and Windows 10 product license keys from the BIOS or EFI in a jiffy.

To read Windows 7, Windows 8.1, or Windows 10 product key from the BIOS or UEFI, simply run OEM Product Key Tool on your PC. Upon running the tool, it will automatically scan your BIOS or EFI and display the product key. After recover the key, we recommend you store the product key in a safe location.

Windows 10 Product Key Tool is compatible with both 32-bit and 64-bit versions of Windows 7, Windows 8.1, and Windows 10. Visit the following page to download the latest version of OEM Product Key Tool.

Note that you might get "Unable to open MSDM table!" message if the product key isn't present in your PC's BIOS/EFI. If you're getting this message, the product key sticker must be located somewhere on your PC. Look for it!
