- Language: Muliti-nations
- Operation: Windows 7
- Highlight: win 7 home premium product key, windows 7 sticker

## Product Description

### Microsoft Windows 7 Home and Premium 32 Bit Retail Box lifetime warranty On Sale

#### Product Description:

Windows 7 Home Premium 32/64 Bit download Version Microsoft Windows 7 Home Premium makes it easy to create a home network and share all of your favorite photos, videos, and music. You can even watch, pause, rewind, and record TV. Get the best entertainment experience with Windows 7 Home Premium. Product features: Desktop With Windows 7, we've made it easier to get more done on the desktop. New ways to juggle windows Overwhelmed by open windows? Windows 7 comes with three simple yet powerful new features called Aero Shake, Aero Peek, and Snap to help you instantly clear through desktop clutter. Faster, more Responsive Performance Nobody likes to wait, so we all want our PCs to perform well. We looked at a number of ways to improve performance on PCs running Windows 7. We designed the operating system to be more responsive and simpler to use. To improve performance, Windows 7 is designed to make PCs start up, shut down, resume from standby, and respond faster. To help you zip through your day, we've added new features to simplify the number of steps required to do common things. We've also focused on making it more convenient to work with the operating system. For example, the Action Center gives you more control over how the operating system notifies you about system changes. You can recover more quickly from problems when they do occur because when you're ready to address issues, Windows 7 will help you fix them. Spectacular New Wallpaper We spend a lot of time staring at our PCs. Aesthetics shouldn't just be an afterthought. That's why Windows 7 includes a slew of new desktop backgrounds-wallpapers-that range from sublime to silly. Or try the new desktop slide show, which displays a rotating series of pictures (ours or yours). Your desktop will never be dull again. Retooled Taskbar Since Windows 95, the taskbar has served as the go-to spot for launching programs and switching windows. Times and PC habits have changed. So in Windows 7, the taskbar has been completely redesigned to help you work smarter, cut clutter, and get more done. Improved Gadgets Gadgets, the popular mini-programs introduced in Windows Vista, are now more flexible and fun. Based on your feedback, we've done away with the Sidebar, so you can stick your gadgets anywhere on the desktop. Parental Controls Even when you're not looking over their shoulders, you can set limits on your kids' computer use-and help them be safer online, too. In Windows 7, Parental Controls helps you limit how much computer time children have, as well as which programs and games they can use (and perhaps more importantly, when). With the Parental Controls in Windows Media Center, you can also block access to objectionable TV shows and movies. Easier TV, Movies and Video With a streamlined user interface and support for new content types and digital TV, Windows Media Center in certain editions of Windows 7 makes watching TV, movies, and other video content on your PC easier than ever. With a simple USB TV Tuner you can record and watch shows on your schedule. Windows Media Center has been updated to manage a single TV guide containing both standard and digital high definition TV shows. You'll be able to find your favorite shows super-fast with new features such as turbo scroll. Just hold down the right-arrow key and you'll zip through content listings. System Requirements: - Hard Drive Space: 16 GB of available hard disk space - CD-ROM or DVD drive - DirectX 9 graphics processor with WDDM 1.0 or later driver. - Pentium 300 MHZ or later - Processor: 1GHz or Faster Once you purchase this and checkout, we will e-mail you the download link on the Microsoft website and the activation key to unlock the software. This is an ISO download. Important: This software is downloaded directly from Microsoft and is available immediately after purchase. The purchase includes 32 and 64 bit download links and a product key for installation and activation. Good for 1 PC. Note: Once your order has been placed, this product is nonrefundable. When you place your order you will receive instructions on how to download your software and we will then verify your payment. After your payment is approved you will receive an email with a software Activation Key. Buyer is solely responsible for determining suitability of this software for installation and use with Buyer's hardware and other software. NO RETURNS OR REFUNDS FOR INSTALLATION INCOMPATIBILITIES

#### Benefits of Microsoft Windows 7 Home Premium

with this software package from software-now. In addition to this genuine software from Microsoft that is guaranteed to install, activate and work successfully on your computer, this package includes Service Pack 1. Service Pack 1 was issued about one year after Windows 7 debuted and this package added support for Advanced Vector Extensions and Advanced Format 512e for better hard disk functionality. This service pack also resolved issue that were found regarding printing XPS documents and an HDMI audio issue. Windows 7 has new and refined features and looks over its predecessors including a new look task bar and the Snap window management system and this operating system introduced Internet Explorer 8 and Windows Media Player 12 to the market. This version of Windows 7 Home Premium with SP/1 will arrive to you via electronic delivery within 30 minutes of payment, allowing you to install the operating system quickly onto your machine.

#### Easier to use

- 1 . Improved desktop navigation features like Snap, Peek and Shake, make it easier to manage all of your open windows and documents.

#### **Additional system requirements**

Product functionality and graphics may vary based on your system configuration. Some features may require advanced or additional hardware.

Depending on resolution, video playback may require additional memory and advanced graphics hardware.

#### **What does OEM mean?**

OEM product keys are priced lower than their retail counterparts, but use the same software as retail versions of Windows. Per Microsoft's EULA regarding OEM, the product key is tied to the PC motherboard which it's initially installed on, and there is typically no transferring the key between PCs afterwards. On versions of Windows which require a valid product key for media download from Microsoft (like Windows 7), OEM keys will be rejected.

#### **OEM/Reinstall Disks/MAR Software**

In compliance with Microsoft licensing, recovery media, OEM media and MAR media containing Microsoft software must be redistributed as part of a complete package that contains the media, the original computer hardware with which the software was distributed and the corresponding COA label.

In compliance with the above policy, this is a sale of complete package which includes the original media DVD and and key bundled together with original PC Parts that is damaged beyond economical repair.
