Work smarter

Office Professional 2013 was designed to help you create and communicate faster, with time-saving features and a clean, modern look across all your programs. Plus, save your documents online in OneDrive to access virtually anywhere.
Office on 1 PC for business use
Store your documents online with OneDrive
Access, edit, and share your documents on your Internet-connected device using free Office Web Apps [1]

Simplify how you communicate

Be even more responsive to clients or customers. Get to what you need faster in Outlook, use new sharing tools, and share docs on OneDrive.
Respond quickly. Preview Outlook messages, reply from the Reading Pane, or sneak a peek at contacts.
Communicate the way you want, faster. Now you can find all your sharing options in one place in Office programs, File > Share.
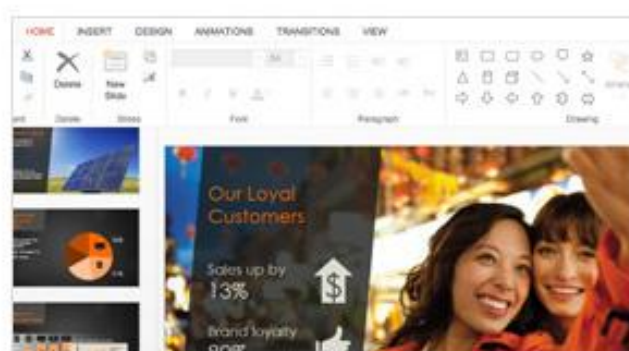

Turn data and ideas into expert docs

Create winning docs fast using templates from the Start screen. Work with .pdf content, images, and data in new ways and share your work online.
Draw conclusions from data in less time. Convert data into a chart or table in two steps or less.
Easily build a database app and share it on the web. Access creates the structure, so you can start using and sharing your app right away.

Your personalized Office

Sign in to Office on your PC or on the move—your personal settings and recent files are with you.
Your custom settings roam with you. Re-open a document from any PC or device and keep working right where you left off.
Store files in the cloud. Office saves your documents to OneDrive so your notes, documents, and group files are always accessible.
