Product Description

Microsoft Office 2013 home and student Key Office 2013 Standard Retailbox

Product Description

Office Home & Student 2013 is designed to help you create and organize faster with new, time saving features and a clean, modern look.

Office Home & Student 2013

Word, Excel, PowerPoint, and OneNote on one PC.
Office Home & Student 2013 is designed to help you create and organize faster with time saving features and a clean, modern look. Plus, you can save your documents in the cloud on SkyDrive and access them when you are not at home.

What's new in this release of Office?

The 2013 versions of familiar Office applications such as Word, Excel, and PowerPoint include new features that help you create, communicate and work efficiently from virtually anywhere. In addition to updating the traditional Office suites, Microsoft has developed brand new subscription versions of Office, specifically designed around the way customers use Office. Each new subscription offer will include the 2013 versions of the Office applications, for example Word, Excel and PowerPoint, plus cloud services such as Skype world minutes and online storage with SkyDrive.

Subscribers will also receive future rights to version upgrades as well as per-use rights across multiple PCs or Macs and select mobile devices.1 Note: The Office applications you can use across PCs, Macs and other devices vary by platform.

What is the difference between the Office 2013 suites and Office 365 plans?

Microsoft Office is still the name Microsoft uses for its familiar productivity software. Office suites have traditionally included applications such as Word, Excel, PowerPoint, and Outlook. All Office 2013 suites include the latest versions of the applications, for use on a single PC.

Microsoft uses the name "Office 365" for products that include cloud services, such as additional SkyDrive online storage, Skype minutes for home use, Lync web conferencing or Exchange Online hosted email for businesses. Cloud services are features that are enabled over the Internet. Most Office 365 plans also include the full-featured Office 2013 applications, which users can install across multiple computers and devices. All Office 365 products, such as Office 365 Home Premium, are paid for on a subscription basis, annually. Active subscribers will receive future rights to version upgrades as a benefit of their subscription. Entitlements vary by product.

What it includes:

Word, Excel, PowerPoint, and OneNote.
Office on one PC for household use.
One time purchase for the life of your PC; non-transferrable.
7 GB of online storage in SkyDrive.
